EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On column 1 line 4 of the instant specification insert the following

--This application is a reissue of U.S. Patent 5,599,354, application 08/890,577 filed on July 10, 1997. --

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. The prior art does not teach the apparatus as claimed with the combination of an evaporating source and the electron beam gun. The electron beam gun is aligned in order to aid in the deposition of the materials. The prior art does not have the apparatus such that the electron beam gun is aligned as done in the instant application. There is no suggestion in the art to change the alignments of electron beam guns in order to have the apparatus of the instant claims.
